

# PRINCE TALAVIYA

React Js Developer

Surat, Gujarat 📞 +91-9099323266 | ✉️ [princetalaviya2000@gmail.com](mailto:princetalaviya2000@gmail.com) | 🌐 [LinkedIn](#)

## PROFESSIONAL EXPERIENCE

**TECHCOMPOSE SOLUTIONS PVT. LTD, Ahmedabad, India** July 2023 - Present  
React Js Developer

**Next Login | React Js Redux Material UI** June 2024

- Designed and developed a comprehensive user management and tracking system using React.js, Redux, and Material UI, streamlining HR workflows such as leave approvals, task allocation, and meeting scheduling, reducing manual processing time by over 50%.
- The system includes features such as secure employee login, leave management, request handling, task management, meetings, activity management and other essential HR functions.
- Designed and implemented reusable components using React.js, ensuring consistency across the application.
- Collaborated closely with backend teams to integrate RESTful APIs seamlessly, testing and optimizing endpoints for speed and reliability.
- Implemented Redux for centralized state management, streamlining complex data flows and improving application scalability and maintainability. And leveraged React Hooks and functional components to enhance code readability and optimize rendering performance.

**Percentology | React Js Redux Bootstrap** April 2023

- Developed a user-friendly **React Js** web application for an **Accounting and Bookkeeping system** tailored to dental practices, streamlining financial data management.
- Developed a custom accounting dashboard using React.js, Redux, and ApexCharts, enabling dental practices to track income, expenses, and profitability. Integrated peer performance benchmarking to deliver competitive insights.
- Enabled practices to track income, expenses, profit, and loss, providing insights into financial performance.
- Implemented dynamic peer comparison features, providing actionable insights into practice performance relative to industry benchmarks.

**TECHCOMPOSE SOLUTIONS PVT. LTD, Ahmedabad, India** January 2023 – Jun 2023  
React Js Intern

- Developed and implemented a **training project** focused on real-world business use cases using modern frontend technologies and strengthened expertise in **React Hooks** and state management.
- Collaborated with senior developers to deliver bug fixes, implement feature enhancements, and develop new functionalities, resulting in improved user experience.
- Developed reusable React components with a focus on component-based architecture, reducing code duplication and improving maintainability.

## KEY PROJECTS

- Dental Accounting Dashboard**
  - Created a React.js and Redux-powered dashboard for managing dental practice finances.
  - Integrated real-time data visualization using ApexCharts and implemented peer benchmarking.
- HR Task Automation System**
  - Built a centralized HR platform with task management, meeting scheduling, and leave approvals.
  - Show real time task and meeting tracking system.
